AlbacMat Emergency Rescue Mat

The AlbacMat Emergency Rescue Mat is designed to allow ONE person to safely transport another.

The unique and innovative design of the AlbacMat enables you to move a patient up or down stairs as well as across all types of terrain. Perfect for safe and effective evacuation of frail or immobile children or adults. Holds up to 800 lbs. No wheels to snag, no pulleys to rig.

- Tapered for patient comfort
- Easily accessible multi straps for securing the patient
- Insulated board provides patient protection
- Fluorescent yellow straps for detection in dim lighting
- Foot rest pocket for comfort and security of patient
- Polypropylene board acts as insulator over surfaces
- Three separate handles for rescuer's ease
- Unroll, strap in and go!

The AlbacMat is constructed from customized materials - including poly-propylene board and a lightweight canvas material. These materials have been extensively tested in all types of situations. The polypropylene board acts as an insulator to the patient and absorbs any concussions incurred while in transit.
The AlbacMat can be wiped clean and used over and over again. This mat is used all over the world in schools, hospitals, nursing homes, mines, ambulance companies, fire departments, funeral homes, anywhere!

Simple instructions clearly visible on self-storage pocket.
